

## INFORMATION TECHNOLOGY REVIEW

Are you **backing up** all your patient data?

Is someone trying to **hack** into your computer network?

Are you able to recover your **patient files** in the event of a disaster?

Are you addressing all the aspects of IT that relate to your **accreditation**?

### ***How do you know?***

Beyond IT Solutions has been undertaking Information Technology Reviews and providing advice for over 20 years to Tasmanian healthcare organisations. We specialise in the areas of cyber security and risk management as well as providing general support and services to the healthcare sector.

We understand the needs and obligations of practices - both large and small.

Whether you are a General Practice or Specialist, Primary or Allied healthcare provider, Beyond IT Solutions can undertake a review of your current Information Technology systems and provide feedback on where improvements can be made and where risks might be reduced.

### ***Our offer to you***

As a 2024 UNITE & IGNITE attendee, you can access a complimentary IT Review – at no cost and no obligation.

Simply send us an email at [review@beyonditsolutions.com.au](mailto:review@beyonditsolutions.com.au) with your contact details and we'll be in touch to explain the process and arrange a time that suits you to get started.
