Quick Guide: Creating an eReferral

Software	Step 1	Step 2	Step 3	Step 4	Step 5
Best Practice	Open the patient's file and click on the **HealthLink Icon**	Create a new eReferral by selecting the **blank white page** icon 	To refer to Allied Health, click on the 'Refer/ Contact other health providers' 	Search for the Allied Health Professional or via a Practice Name 	Select 'Refer Patient' to start an eReferral*  *if the provider is not shown after the search, they are not registered with HealthLink to receive referrals
Medical Director	Click on the **HealthLink tab** in the patient file	Create a new referral by selecting the **New Form** icon			

What is eReferral?

eReferrals are a way to send secure, electronic referral communication between primary health care providers, hospitals, specialists and allied health practitioners.

eReferrals are powered by HealthLink Smartforms which is seamlessly integrated into existing general practice clinical software packages.
